

Keep this handy. The first half is how we operate; the second half is the practical stuff you'll come back to — office access, who to ask, where things live, and what to do when you're stuck.

How We Operate

Most problems get worse in silence.

Surface issues early — that's how they get solved while there's still time.

Clients borrow certainty from you.

When you're calm and clear, they feel safe. Be steady, not perfect.

Consistency beats intensity.

A sustainable pace you can hold for decades beats short bursts of effort.

Judgment matters more than information.

Your value isn't knowing everything — it's knowing how to think and who to ask.

Systems protect relationships.

Following the process protects your clients and your reputation.

Your reputation compounds.

It's built through small moments, handled well, over time.

How We Think About Clients

- Be clear.
- Be honest early.
- Explain what's happening.
- Set expectations before problems happen.
- Communicate consistently.
- Don't disappear during difficult moments.

Clients remember how you communicated, how you handled pressure, and whether they felt guided.

Communication is part of performance.

What Strong Agents Do

Strong agents:

- Follow up.
- Communicate clearly.
- Stay visible.
- Ask questions early.
- Stay organized.
- Protect relationships.
- Stay consistent even when business slows down.

How Support Works

Your job isn't to know everything. It's to stay calm, communicate clearly, ask good questions, and know when to bring in help.

Real estate is learned through live situations, mentorship, and weekly masterminds — steady exposure over time, not a curriculum.

- **Learning your first deals?** Your mentor walks with you through your first 3 transactions — they see the contract before you send it and help you think through problems in time.
- **Have a question?** Start in Slack #guides. Search first (most are already answered), use AI to organize your thinking, then bring real-world questions to the team.
- **Weird situation?** That's what support is for — construction, renovation feasibility, design, financing, title, marketing, pool/outdoor. You don't carry it alone.
- **Overwhelmed?** Wednesday Masterminds, classes, and broker access exist so you can get perspective.

Your Most Important Systems

Each platform has a job. Use them that way.

- **Rechat** — transactions + CRM (deals, tasks, and your CDA live here).
- **Slack** — communication (#guides is your first stop).
- **RealScout** — your branded client search portal.
- **Google Workspace** — email, calendar, shared docs.
- **Backsite** — training + references (www.6thavehomesagents.com, password: one-stop-shop).

5. Ask early — before the pressure builds.
6. Escalate to a Subject Matter Expert or Brian when you need real-world perspective.
